Eduland is the first technology-aided school in the valley, founded on the belief that memorization should not be the sole measure of education and learning. Our mission is to establish a center for conceptual-based learning in our community.

We are proud to be powered by LEAD, an integrated edu-tech solution that enables us to realize our dream of offering an integrated curriculum supported by technology. With a strong commitment to core principles and a motto of striving for excellence, our vision is clear and defined: to familiarize the students of the Valley with the dynamic, innovative and technology aided education and learning opportunities for our students.

At Eduland, we are committed to provide our students with the tools and resources they need to succeed. Our approach is to foster critical thinking, creativity, and problem-solving skills in our students. We believe that technology can be a powerful tool to enhance learning and prepare our students for the challenges of the future.

Eduland is more than just a school. We are a community of learners, innovators, and dreamers. We are committed to providing a world-class education that prepares our students for success in the 21st century. Join us today on this exciting journey and discover the endless possibilities that await you!

You know the most precious investment one could make in their life-time is investing in the quality education that I have learnt so far. Quality education doesn't mean producing good notes for students and having good scores in their exams. It's more on embedding values, etiquettes, virtues towards producing a well-informed responsible citizen adaptive to changes.

Change is the fundamental law of nature. But the changes brought by the passage of time affects individuals and institutions in different ways. Needless to say, the pandemic has transformed the centuries-old chalk-talk teaching model into one drive digital technology. This disruption in delivering quality education pushes educationists to devise ways to drive engagement while inclusive e-learning solutions. Therefore, towards meeting the hybrid demand of quality education in the Barak Valley, the Eduland Sr. Secondary English School, Badarpur, delivers its best quality education services towards building the future. Be the one!!

We must agree that our education system needs a change, as such the existing system failed to get the desired result. Change is important but not an easy task. It takes its cost. Other than dedication and passion it requires time, discussion belief and expertise. With such belief and commitment we at Eduland intend to empower the Valley by making excellent school education accessible and affordable to each and every child. With humble values of empathy and integrity, we are in constant discussion with all the stakeholders like parents, students teachers to create a social ecosystem which can hold and understand the change.

I thank all other esteemed Institution of the valley without such institutions I would not be in a position to aspire for such Revolutionary change. With the world shifting to a new realm of education in the wake of the COVID-19 pandemic, we feel an urgent need for change. Thus in order to grace the Valley with a new system of learning, Eduland in collaboration with Lead isolated itself to bring a change in a different way- to introduce the technology based learning system in the valley.

**BECAUSE WE BELIEVE THAT PARENTS FAITH ON US**

# THE SCENARIO

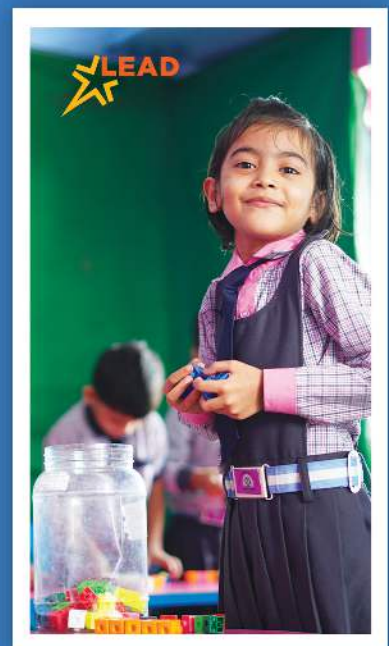

Every year, the Valley produces an average of 30 to 40 thousand matriculate students. However, only one or two examples of clearing UPSC are set by the Valley. The success rate in NEET and JEE is also negligible and participation or appearing in other competitive exams is not quite encouraging.

EduLand firmly believes that many talented minds remain unexplored and underutilized due to a lack of guidance. With this vision in mind, EduLand has isolated itself in expertising in Research and Technology aided education in collaboration with LEAD (a research based edu - tech company) and equipped itself with a host of experts and specialized organizations that strive to support the students so that a journey that begins with our endeavour may benefit the masses.

## PROUD PARTNER OF LEAD

Lead is a leading School EdTech revolution in India as a pioneer by empowering schools across India with our integrated solutions to make international standard education affordable and accessible for every child in the country.

# TEACHING WITH TECHNOLOGY

TECHNOLOGY MUST INTERFERE IN OUR EDUCATION SYSTEM

**AUDIO-VISUAL LESSONS WITH FULL DIGITAL CONTENT SUPPORT.**

The school is future ready with all technology aided classrooms. Equipping students with technology based learning is our vision... In order to build a strong cognitive value and to make teaching and learning process more interesting and lively we at EDULAND emphasis on digital integrated learning with our:

**100% SMART CLASSROOMS**

# CONCEPTUAL LEARNING

BEYOND THE THEORIES, INTO THE PRACTICAL WORLD

The most important aspect is the comprehension and application of concepts. Education should not solely involve rote memorization. Our Concept-Based Workbook and Audio-Visual Digital Content aim to cultivate advanced cognitive processes such as intelligence, critical thinking, and reasoning. This approach provides practical exposure and experience, giving individuals a competitive advantage in the real world.

# NEET AND JEE COACHING

The Valley saw more aspirants for JEE and NEET from the last few years. Our expertise faculty from Kota Rajasthan will give impetus in achieving their dream. Eduland is a proud partner of Gurucharanam Institute, Kota, Rajasthan. The team will take over the session in November or after ending the board syllabus whichever is earlier.
